1 Requires SNAP PAC controller firmware 10.3a or higher or groov EPIC firmware 2.0.0 or higher.

2 Requires SNAP PAC S-series controller(s).

3 On a groov EPIC, serial connections from the processor require a USB-to-serial adapter.

4 Also see the [SNAP-PAC-ROK Redundancy Option Kit](#).

5 For more information, see the [Communication Tools & Protocols for Opto 22 Products Technical Note](#) (form 1820).

6 Not recommended for use with groov EPIC processors running PAC Control.

7 PAC Display projects can include groov EPIC systems and groov RIO modules. PAC Display cannot run on an EPIC processor; it runs on a Microsoft Windows PC.
