OPTO 22

Getting Started with SNAP-PAC-R1 (GEN2)

> **1. Install PAC Project R10.0 (or higher)*.**

On your PC, go to `opto22.com` and search on `PAC Project Basic`. Download the file and save it to your computer. Double-click the filename and follow instructions to install software and manuals.

* *To install firmware, you need PAC Manager 10.5c (or higher).*

> **2. Install and configure the controller.**

For installation instructions, review the *SNAP PAC R-series Controllers User's Guide* (form 1595).

For instructions on configuring **in a SNAP PAC system**, review the *PAC Manager User's Guide* (form 1704), installed in the C:\Program Files (x86)\Opto22\PAC Project <version number>\Manuals folder.

For instructions on configuring **with Allen-Bradley systems**, review the *EtherNet/IP for SNAP PAC Protocol Guide* (form 1770), installed in the C:\Program Files (x86)\Opto22\EtherNet-IP\Manuals folder.

You can always get the latest software, firmware, and documents from our website.

Go to `opto22.com` and enter your part number in the search box (`SNAP-PAC-R1`). When the product page opens, click the Documents or Downloads tab to find what you need.
